## Team Registration

In addition to the individual competition, there will be a team competition for each race. Grab a group of friends/co-workers/family and compete for the glory! In order to create a team, you will need at least five runners (maximum of 9). Teams will be scored by taking the combined time of their top five finishers. There are four team categories: Male (have at least four male scoring members), Female (have all scoring members composed of females), Co-ed (have at least two scoring members of each sex) and Corporate (composed of at least four scoring members from the same company). As a member of a team, not only will you be running for team supremacy, you will also be automatically entered in the individual competition. We have discounted the registration for team runners to \$20 per person, regardless of your individual Division (UCSB Alumni, UCSB Faculty & Staff, General Public). So get out there, form your team, design your race outfits, devise your strategy and get ready to take on other teams in the UCSB Running Series.
